that of Honolulu. As the importance of Hilo increases the requirements in a sanitary line are increased and these should be met most carefully. There is little doubt of the fact that Honolulu could easily spend \$250,000 or twice that sum without rendering the sanitation of that city even close to perfect, but the fact remains that, while the larger portion of the sum will naturally be spent there, other places also have claims.

Postoffice Burglaries.

HILO, May 23.—Postoffice burglaries are the fashion now. This island had its third burglary of this kind within a month last Sunday night, when the postoffice and store at Kuristown, Oahu, was victimized, though the case, as far as damages is concerned, did not amount to much.

The postoffice is located in the store of the A. G. Curtis Company, and Mr. Curtis is positive that the burglary must have been committed during Sunday night, as he left the store at five-thirty p. m. Sunday, and at that time everything was in order. The intruder first tried to enter through the door, the lock of which shows signs of having been tampered with, but he was unsuccessful, and he finally gained an entrance by smashing the lock of one of the big letter boxes, through which he crawled into the building. The space through which he crawled is so small that it seems certain the miscreant was a boy. Nothing belonging to the postoffice was tampered with, but from a cash drawer the intruder took a dollar. He was evidently working in the dark, or must have been frightened away, for there was more money in the same drawer, which was left untouched, as well as some cash which was lying exposed on a desk. Sheriff Pua has been notified of the matter and will probably take up the case in person.

The High School Report.

Hawaii Herald: Every one in Hilo is glad that the high school investigation is over, for, while the affair will without doubt have a salutary effect, the ordeal, like an operation, was rather unpleasant. Furthermore, it is probably not saying too much that every one is pretty well satisfied with the result of the investigations, or rather, that they would be, were it not for the peculiarities of the grand jury report, which condemned without indicting. This feature of the affair has been condemned here by all who expect to see fair play and do not expect to see a grand jury prostituting its office just because it gets a hysterical fit.

Juries for Maui Court.

WAILUKU, May 27.—Jurors drawn to serve at the June, 1911 term of the Second Circuit Court at Lahaina, are as follows:

Grand—Sam Alo, F. F. Baldwin, E. C. Bortfeld, H. T. Broderick, C. C. Clark, C. B. Cockett, J. C. Flores, E. Forsythe, P. Goodness, George K. Kumukau, E. Kruse, D. L. Meyer, Otto S. Meyer, David Morton, J. S. Pires, Stanley Richardson, K. W. H. Roen-

A NEW IMPROVEMENT CLUB STARTED

Another Honolulu Improvement Club was born last night. Some 250 taxpayers and voters met together at the Lusitania Hall, situated at the corner of Lunaillo and Alapai streets, and formed themselves into an association to be known as the Auwailimu Improvement Club.

Mr. A. D. Castro was in the chair. By-laws for the society were adopted, and the following were elected as officers viz: A. D. Castro, president; Johannes F. Eckardt, vice-president; Oliver P. Soares, secretary; Vincent Fernandez Jr., treasurer.

These officers together with the following five elected members will form the executive board. The additional members are Messrs. John K. Clarke, A. H. R. Vieira, Edward Woodward, Jose P. Rego and A. V. Peters.

At last night's meeting strong protests were made in reference to the manner in which the Auwailimu district had been neglected in past years by the minister of the interior during monarchical days, and more recently by the territorial and county governments.

The district embraced by the new Auwailimu Improvement Club is quite a large one, the boundaries being as follows: Commencing at the old battery hill on top of Punchbowl, thence

makal to the Beretania street pumping station, along that avenue to Punchbowl street, up Punchbowl to the junction of Miller and Vineyard, along Vineyard to Fort street, thence to the Paoa road, along the Paoa road to the bridge, continuing along the stream for a considerable distance, thence in a straight line to the starting point.

From the large population within this district, a great portion of whom are voters, it is hoped that the Auwailimu Improvement Club will be able to do a good deal of good by helping to improve that part of the town.

The executive board will hold its first meeting at the Lusitania Hall on Monday evening next at 7:30, when the appointment of special committees will be gone into. One of the most important things to be taken up by the executive board will be inquiring into the present status of the negotiations between the Territorial government and the Kapiolani Estate with reference to the buying out the leasehold interest of the latter in the Auwailimu Ahupuaa in order to give the residents on that land the chance to purchase the homes in which they have lived, in some cases for a quarter of a century.

Kamaaina Passes Away.

Maui News: Nearly sixty years ago Edward Hoffman arrived on these islands from his home in Germany. He came to his uncle, Dr. Hoffman in Honolulu. After a few years young Hoffman returned to his native town of Bremen and remained away from the islands about five years.

When he returned here he came to Maui and had a small plantation up in the Kula district. Later he came to Wailuku and opened a general store in partnership with Mr. Vettesen. Of late years Mr. Hoffman has not been in good health, and the death of his friend, George D. Schrader, affected him greatly. He failed rapidly during the past few months, and an old trouble of long standing reasserted itself. Last Monday he was taken to the hospital and in a few hours passed peacefully away. Mr. Hoffman was seventy-four years of age.

Bean Cakes and Rice Balls.

Kohala Midget: The government school at Laupahoehoe has no cloak-rooms, consequently the pupils have to

hang their wraps, hats, lunch-pails, umbrellas, and raincoats under the schoolhouse (the only available space for that purpose) where the wind often plays havoc with these articles so dear to every child. This calamity is further increased by the ravages of some dogs, which occasionally come around and steal away some child's loaf, bean cakes, or rice-balls. It is not an unusual thing to see a few of the little children now and then mourning the loss of their lunches. The children have suffered from these tortures for years, and it is about time that a new building should be erected.

Astronomical Enthusiasts.

Kohala Midget: Last week was "Round-the-Block" week for the young couples of Kohala. It seems a pity that Hawaii does not have the two gates on the Honolulu road electrically operated. We are told that it is very disconcerting to have the study of the moon interrupted by being obliged to get out of the carriage or auto to open a beastly gate. The Hoea watchman reports that those who pass the mill at night are often unaware that such a place exists, so intent are they in the study of the stars.

MILK TROUBLES ENDED.

** A boon to infants, a milk easily digested; a safe hot-weather milk; sick babies thrive on it; a necessity for bottle; babies, a milk; improved in keeping qualities; bottled and capped by sanitary machinery; electric purified. Honolulu Dairy-men's Association, Limited.

The census of Vienna, taken on the last day of 1910, showed 2,004,291 civilian residents and 26,543 military.

1911 MODELS

The 1911 Indians embody a feature that revolutionizes the construction of motorcycles, and which effectually solves the long studied problem of the transmission of the power of the motor to the driving wheel.

This feature is a new positively acting free engine clutch, that not only fulfills every function heretofore performed by the well known Indian compensating sprocket, but also makes the starting of the machine easy under every condition, and gives the rider as absolute, simple and positive control over his machine as is possible in the most perfect automobile. The rider can with ease and certainty run his machine at a walking pace in a crowded street, stop and start again without stopping his motor; and the machine can be started on a rough road where there is no possibility of starting by the usual methods.

The operation of this clutch is described in another place, but it may be stated here that this feature is a part of the regular equipment of all 1911 models, without extra charge.

In other directions the 1911 Indians have been improved as usual in many minor details where new methods of construction and new ways of manipulating and applying special steels and other materials afford opportunities for making the several parts better and stronger.

The 1911 Indians will all be of the handsome and convenient drop loop frame model that has proved so successful and popular, and which has been so widely copied in other machines; and the line will comprise the same sizes as were offered during the past year. These are the 2 3-4 and 4 h. p. single cylinder models and the 5 and 7 h. p. twin cylinder machines, of which descriptions follow:

The two speed gear, announced last year, has proved most efficient and perfect, and it has been modified and improved by the substitution of the new Indian clutch for the one used previously. This gear will be supplied to riders this season on the 4 and 7 h. p. chain drive models only.

In presenting this line of motorcycles the public is afforded a variety of choice not offered by any other maker in the world; and in perfection, design and quality, nothing approaching them has ever been produced.

We have just been appointed Agents for the INDIAN and by the Lurline we received 9 of the 1911 models. Most of these are already spoken for but we have another shipment following, which we hope to receive by the Sierra this week. Call and leave your orders for the most up to date motorcycle made.
